### Communicating With Your Camper

The best way to stay in touch with your son, and with the day-to-day ongoing of Camp, is via **Campanion**.

The Campanion app is a mobile app that was built specifically to help communicate the experience of camp. The Campanion app puts all of your camp photos, updates, and memories in one place making it easy for parents to experience their camper's moments while giving camp directors a modern tool to share the wonder of their experience.

Campanion will be replacing our "Camp Kawaga" app that was used last year. The decision to transition has been made with the parent's experience in mind. Campanion will offer all the same features as our previous app did (i.e., photo albums, facial recognition, updates, and sending your campers e-letters), but will also allow for the completion and uploading of forms directly from your phone!

To get started, follow these simple steps:

- [Download the Campanion app](#)
- Use your CampInTouch Account email address and password to log in
- Complete forms online and upload completed paperwork right in the app
- Upload a training photo of your child, which enables the app to send you photos of your camper over the summer
- Ensure you have push notification enabled within your phone settings so you can receive important updates from camp all year long!

## E-Letters

Campanion will also make sending letters easier than ever. Using the Letters feature in the app, you'll be able to write emails to your camper as often as you'd like. We'll also upload handwritten messages from your camper, which you can read right in the app.

## Mail

TO SEND MAIL THROUGH A MAIL CARRIER, PLEASE USE THE FOLLOWING ADDRESS:

Camper's Name - Camper's Cabin Number (If Known)

Camp Kawaga

10,000 Kawaga Road

Minocqua, WI 54548

## Camp Photos

We'll be sharing photos all summer long, and Campanion's facial recognition technology automatically searches for campers and tags them for you to view in the app. This saves you time sifting through hundreds of photos. Once you've logged in, you'll see an option to upload a training photo of your child. This enables the technology to identify your campers and receive notifications whenever they appear in camp photos.
